

Thank you for visiting CCI at ITMA 2019!

We would like to thank all our customers, business partners and new friends for visiting our booth at ITMA 2019. The show, held every four years, is a great opportunity to see everyone. This is also the first time that CCI has a two-story booth that provides a more comfortable space for meeting. Besides, we were invited to give a talk at Taiwan Smart Machinery Weave The Future Int'l Press Conference organized by TAITRA* at the show, and it was such a big hit that all people were very impressed by our solution. We must give credit to our sales manager Andy who spent a lot of time and effort to complete such a brilliant presentation!

*TAITRA : Taiwan External Trade Development Council

CCI is very delighted to have such positive feedbacks for our latest products which we've launched at the show, especially for LUTAN.com. The machine we displayed during the show is just a prototype. However, everyone was very impressed by its No-Creel Design and Wider Working Width up to 2600 mm, and wanted to place an order immediately. The new machine will be available at the end of this year, and we will be happy to serve you by then.

In addition, the Individual Servo Shedding Device of [Kebalan](#) drew a lot of attention as well, especially for the users with requirement of special or other functional fabrics. Everyone was surprised that we can develop such a new high-tech product, and thought it comes just at the right time. A large increase in weaving speed on [Evergreen II](#) also received many positive feedbacks for its running stability. The 2-spindle option of [Taroko](#) showed its great flexibility to meet the needs of various applications, specifically for R&D facilities.

During the exhibition, there was a beautiful fireworks show in Barcelona city to celebrate the Festival of Sant Joan and we really enjoyed the night. We also love tapas, early summer time, culture exchange and the energetic city at ITMA 2019. Thanks again for your coming and we sincerely look forward to seeing you soon in the near future!

New Leaflets and Brochure Launched

CCI has already launched a series of brand new leaflets and brochure in English. The main brochure introduces our company advantages and solutions. The product leaflets include sizing, warping & weaving machines and auxiliary devices. You can access our website to find all these collaterals with just a click. Leaflets and brochure in other languages will also be released soon.

World Festival in 2019

Festival of Sant Joan (23 - 24 Jun)

The traditional and popular festival celebrates the start of the summer, which takes place in the evening of 23 June, St. John's Eve. There are firework displays all over Barcelona, especially at Barcelona Beach. You'll find street parties in all of the Barcelona neighborhoods as well, with people gathering together and sharing food and drinks. Besides, people will have the traditional Coca de Sant Joan cake that is topped with candied fruit and sugar and is extremely tasty.

Holiday Schedule

Moon Festival: 13 Sep

Double Tenth Day: 10 - 11 Oct
