Newly Released Solution for Carbon Fibre Application

Carbon fibre fabric is now highly demanded in a rapidly increasing number of areas. CCI has already developed a sampling solution for this emerging market. The [Evergreen 500 for Carbon Fibre](#) features non-twist yarn unwinding, positive gripper, and dust-proof design. We also offer the non-twist positive creel and non-twist warper based on customer's demand. The solution is already available and shipped to our customers in Turkey and Australia.

Leno Weave Attachment Available on CCI Sampling Loom Now

Leno fabric is ideal for using in new material development for many markets. To cater to the application of leno fabrics in various areas, CCI presents the [Evergreen with leno device](#), which is specifically designed for suiting the complex production of leno weave. Furthermore, equipped with CCI's computer-controlled technology, users are capable of setting different density and weaves more easily.

World Event in 2017

2017 Summer Universiade (19 ~ 30 Aug, 2017)

The Summer Universiade in Taipei, Taiwan successfully concluded on 30 Aug. Taiwan ranks third in the final medal table with 90 medals overall, which is our best ever performance in the Universiade. We are so excited and proud of the “incredible” performance that significantly surpassed our expectations! Hope you can share the glory and happy memories with us.

World Festival in 2017

Diwali (The festival of lights) (19 Oct, 2017)

Diwali, the annual festival of light is marked by huge firework displays. It is the most awaited and the most celebrated festivals of India. The festival is to celebrate the triumph of light over darkness and hope over despair. You can see millions of oil lamps light up people’s shops, houses, public spaces as part of celebrations which mark the start of the Hindu new year.
